

Project R-SPECT Webinar

Raman spectroscopy in fundamental and applicative sciences: challenges and prospects

May 29, 2024

2:00 PM to 4:00 PM (CET)

Greetings and brief information about R-Spect project
(Zora Dajić, Project Coordinator, University of Belgrade, Faculty of
Agriculture, Republic of Serbia)

Lecturers:

Radoš Gajić, Institute of Physics, Belgrade, Republic of Serbia

Title: Introduction in Raman spectroscopy

Agnieszka Kaczor, Jagiellonian University, Faculty of Chemistry,
Poland

Title: Raman-based techniques - wonder tools to study
carotenoids

Luiz Fernando Cappa De Oliveira Federal, University of Juiz de
Fora. Departamento de Química PhD in Chemistry -
Spectroscopy, Brazil

Title: Understanding ripening processes in fruits and vegetables
by Raman spectroscopy
